

SMU AWARDS

Podiatry Proud!

WOW! What a night it was as the podiatric medical community turned out in size and style at Samuel Merritt University's (SMU) Health Impact Awards, honoring those who have made significant contributions to health sciences or healthcare through their professional activities and/or community service or who have demonstrated exceptional promise for outstanding future achievements. The podiatric community celebrated its own Jon Hultman, DPM, MBA, CVA ('70), who received the prestigious Innovative Leadership Award, and David Armstrong, DPM, MD, PhD ('93), who was presented the esteemed Distinguished Alumni Award.
